Mobile, Alabama, Christian Publishing House Now Two Years Old

April 1, 2008 – Did you know Mobile, AL, is home to a new Christian publishing house? Parson Place Press, a small Christian publishing house located in Mobile will celebrate its second anniversary in the publishing business during the month of April 2008.

Devoted to giving Christian authors a fair opportunity to be published, Parson Place Press seeks to publish books that honor Jesus Christ, uphold the *Holy Bible*, and promote Christian spiritual growth and vitality. Using a print on demand (POD) printer and the largest wholesale book distributor in the world (Ingram Book Group), Parson Place Press can produce a high quality book in either hard cover or soft cover in a relatively short time at a reasonable market price.

Rev. Michael L. White, the founder and managing editor of Parson Place Press, who is also a pastor in Baldwin County and an Army National Guard Chaplain in Mobile, says, **“When I visited the major Christian publishers’ web sites, I noticed a disturbing trend had overtaken them. They no longer accept unsolicited manuscripts from authors, and they require that the manuscripts they publish come from existing authors or through literary agents. This seems quite unfair to aspiring new authors! Therefore, I established Parson Place Press to offer *all* Christian authors a fairer opportunity to be published.”**

The newest title to be published by Parson Place Press, *A Time for Everything: the Kevin Zimmerman Story*, will be available sometime in April 2008. Now, during this special anniversary month, Parson Place Press is offering ***all*** its titles at a 33% discount off the suggested retail price through its online bookstore. That’s 13% more than the usual 20% discount!

To obtain any of the titles which Parson Place Press has published, visit Parson Place Press’ online bookstore at www.parsonplacepress.com/store All of these titles are also currently available through other popular online retailers, such as Amazon.com, BarnesandNoble.com, and Books-a-Million.com. Just search on the particular book's ISBN as listed in the Parson Place Press online bookstore.
